

Who is an OUT for Safe Schools® ally?

OUT for Safe Schools® allies advocate for the safety, inclusion, and celebration of LGBTQ+ students. Staff voluntarily participate in OUT for Safe Schools® by wearing badges signifying their openness to talking with students and families about LGBTQ+ identities, resources, etc.

Who can wear the badge?

A key feature of OUT for Safe Schools® is that it is initiated and implemented through district, county, or state offices of education. It is crucial for school staff and faculty to know they have full backing from their local administration through affirming policies, culture, and practices.

"The OUT for Safe Schools® badge allows the wearer to speak volumes without saying a word. It's an unsurpassed opportunity to show that you are affirming of all students and are a resource for LGBTQ+ students, colleagues and families."
